SR-Bank operates in an attractive region of one of Europe's strongest economies

Market characteristics

- The Norwegian economy remains one of the strongest globally. Given both the low oil prices and
 the ongoing Covid-19 situation, uncertainty remains about how both the Norwegian and the global
 economy will develop. The Norwegian state is particularly well-equipped to contribute financially,
 and extensive measures aimed at both the private sector and business will mitigate the effects of
 the Covid-19 outbreak.
- SR-Bank is the finance group for the entire South of Norway, where the principal regions is Rogaland, Vestland, Agder, Oslo & Viken. This region is Norway's most populous, containing 49% of the country's population.
- Stavanger, the regional capital of Rogaland and SR-Bank's headquarters, is the centre of the Norwegian oil industry. The petroleum sector is simplifying processes and reducing costs to increase profitability. Low interest rates and a weak exchange rate, will contribute to growth in traditional export industries and other sectors as well.
- In addition to the strong commercial development in the region, government infrastructure investments continue to remain significant and are planned to reach 100 - 150 BNOK within the next years.
